## **LBNL Volunteers for Career Presentation - Profile Form**

Berkeley Lab is extending its commitment to education outreach to the community by providing schools and teachers with speakers representing careers in Berkeley Lab's world of science and technology. The Center for Science and Engineering Education is organizing this new outreach activity which will be continued throughout the school year.

High School and Middle School teachers interested in having a speaker come to their school for one or more class periods will submit requests online or by mail. CSEE will match these requests to LBNL volunteers for career presentations. CSEE will also provide LBNL volunteers with training, materials and resources. This will prepare you to present a 45 minute overview of Berkeley Lab and the many careers of people who work here, provide information about the upcoming open house, discuss your work at the Lab and lead a hands-on science activity.

**Due to limitations on your time and availability of resource materials we are requiring schools and teachers to limit their presentation requests to one class at time of typically 35 or fewer students. We encourage teachers to plan that LBNL volunteers speak to more than one class during the visit.**

*Please fill out this form and send it to:*

*CST Volunteer*

*CSEE, MS 7-222*

**Name:** \_\_\_\_\_ **Division:** \_\_\_\_\_

**E-mail Address:** \_\_\_\_\_ **Department:** \_\_\_\_\_

**Phone Number:** \_\_\_\_\_ **Job Title:** \_\_\_\_\_

**Preferred Schools or School Districts:**

**Areas of your Career:**

(e.g. science, engineering, technology, computer science, administration, management, etc.)

**Preferred dates:**

*You will be notified by email that your profile has been received.*
